J.P.Morgan Private Bank  
3424 Peachtree Road NE Monarch Tower, 24th Floor  
Atlanta,GA 30326

To whom this may concern,

I am pleased to apply for the React Software Engineering III position at J.P.Morgan Private Bank. Having the chance to collaborate and build production ready applications with a diverse skilled team aligns perfectly with my passion to create innovative technical solutions. With my skills and experience, I believe I am an ideal fit for this position .

In my previous role, I've been given the opportunity to gain vital experience in the software industry. During my time, I've learned what it is like to collaborate in a fast paced agile environment, while delivering high-quality software applications. I've contributed to a number of projects, where I paired with UX designers, project managers and fellow developers to effectively meet client requirements.

As a Software Engineer, I have a passion for building user friendly interfaces with the React framework that runs efficiently and effectively. I have gained a solid foundation in front-end development and understand how important it is to manage state and optimize performance while dealing with complex data for a large system.

Thank you for considering my application for this position. I am open to interviewing. Please feel free to reach out via email
